

# Roses by *Organic Advantage*™

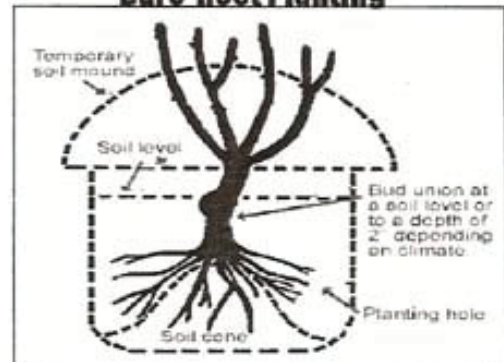

## Container Planting

- remove container bottom
- place container with root ball in 2'x2' hole
  - remove the rest of the container
  - fill in with planting mix
- soak area with ***Organic Advantage Planting Solution***™, allow settling & add more soil

## Bare-Root Planting

- form a cone in the bottom of the hole
  - fan roots out over top of cone
  - cover just roots in planting mix
- fill the hole in with ***Organic Advantage Planting Solution***™ allow to settle
  - add soil up to the bud union

**\*Feed roses twice a month with a balanced Rose Food\***
